

UNITED STATES DISTRICT COURT  
NORTHERN DISTRICT OF CALIFORNIA  
SAN JOSE DIVISION

11	GSI TECHNOLOGY, INC.,	)	Case No. 5:13-cv-01081-PSG
12	Plaintiff,	)	<b>OMNIBUS ORDER RE: MOTIONS IN</b>
13	v.	)	<b>LIMINE AND OTHER PRE-TRIAL</b>
14	UNITED MEMORIES, INC., ET AL.,	)	<b>ISSUES</b>
15	Defendants.	)	<b>(Re: Docket Nos. 769, 770, 771, 772, 773,</b>
			<b>778, 779, 780, 781, 782, 785, 787, 789,</b>
			<b>810, 816, 791-2, 830)</b>

16 Plaintiff GSI Technology, Inc. and Defendants United Memories, Inc. and Integrated  
17 Silicon Solution, Inc. have filed three motions to exclude<sup>1</sup> and twenty-three motions in limine.<sup>2</sup>  
18 Last week, the parties appeared at a pre-trial conference and supplemented their briefing with oral  
19 argument.<sup>3</sup> As previewed at the conference and explained further below, the court grants only a  
20 limited part of the requested relief.

21 **A. Docket No. 769: GSI's MIL No. 1**

22 GSI moves to exclude evidence and argument of its iterative trade secret disclosures,  
23 narrowed claims and dismissed claims. However, this evidence may be probative of ISSI's claim  
24 of bad faith under Cal. Civ. Code § 3426.4 and UMI's defense of unclean hands and defenses

25 \_\_\_\_\_  
26 <sup>1</sup> See Docket Nos. 771, 785, 787.

27 <sup>2</sup> See Docket Nos. 769, 770, 772, 773, 778, 779, 780, 781, 782, 789, 816, 791-2.

28 <sup>3</sup> See Docket No. 878.

1 against trade secret misappropriation. The motion is DENIED.

2 **B. Docket No. 770: GSI's MIL No. 2**

3 GSI moves to exclude evidence and argument attacking the intelligence, ethics, morals,  
4 integrity, or personal behavior of GSI's counsel. Evidence of GSI's counsel's behavior in GSI's  
5 legal action and contract negotiations may be probative of ISSI's bad faith claim and UMI's  
6 affirmative defenses of unclean hands and fraudulent inducement. Furthermore, the court expects  
7 all parties' counsel to conduct themselves with courtesy and civility, and comply with the Northern  
8 District's guidelines on professional conduct<sup>4</sup> without the necessity of a court order. "[M]atters of .  
9 . . common professional courtesy . . . are not proper subjects of motions *in limine*."<sup>5</sup> The motion is  
10 DENIED.

11 **C. Docket No. 771: GSI's MIL No. 3**

12 GSI moves to exclude the expert opinion of Nisha Mody. GSI argues that Mody's report is  
13 flawed because it merely provides conclusions about disputed issues of fact, and especially invades  
14 the role of the jury by providing conclusions about Lee-Lean Shu's deposition testimony.<sup>6</sup> GSI  
15 further argues that Mody cannot testify on a recommended discount rate, because she provides no  
16 opinion as to what rate is proper, and that she cannot offer testimony based on the parties' Early  
17 Neutral Evaluation statements.<sup>7</sup> UMI agrees that Mody will not offer opinions based on review of  
18 the ENEs.<sup>8</sup> As to GSI's remaining bases for exclusion, the motion is DENIED. Mody's report  
19 critiques the assumptions on which Malackowski's opinions are based and his representation of the  
20 facts. It models different rates to critique Malackowski's methodology and does not seek to  
21 provide a recommended discount rate. It neither presents an impermissible conclusion nor invades

---

22 <sup>4</sup> See N.D. Cal. Guidelines for Prof. Conduct 7(b).

23 <sup>5</sup> *Colton Crane Co., LLC v. Terex Cranes Wilmington, Inc.*, No. CV 08-8525 PSG (PJWx), 2010  
24 WL 2035800, at \*1 (C.D. Cal. May 19, 2010) (citing *Kelly v. West Fed. Sav.*, 49 Cal. App. 4th 659,  
25 671 (1996)).

26 <sup>6</sup> See Docket No. 771 at 3-4.

27 <sup>7</sup> See *id.* at 5-7.

28 <sup>8</sup> See Docket No. 823 at 6-7.

1 the role of the jury.

2 **Docket No. 772: GSI's MIL No. 4**

3 GSI moves to exclude evidence and argument regarding a lay person's opinion or  
4 understanding of the law. GSI specifically seeks to exclude any lay opinion or understanding about  
5 the trade secret nature of certain information.<sup>9</sup> However, lay witnesses may provide opinion  
6 testimony that is "rationally based on the witness's perception," "helpful to . . . determining a fact  
7 in issue" and "not based on scientific, technical, or other specialized knowledge within the scope of  
8 Rule 702."<sup>10</sup> Thus, a lay witness with personal experience of the treatment of certain information  
9 may testify as to whether that information was considered or treated as confidential. Here, such  
10 evidence may be probative of GSI's state of mind in bringing suit. The evidence therefore may be  
11 probative of ISSI's claim of bad faith and GSI's defenses of unclean hands and fraudulent  
12 inducement. The motion is DENIED.

13 **E. Docket No. 773: GSI's MIL No. 5**

14 GSI moves to exclude evidence and argument of GSI's reasons for filing suit. Because this  
15 evidence may be probative of the ISSI's claim of bad faith and Defendants' defenses of unclean  
16 hands, misrepresentation, fraudulent inducement, and failure to mitigate, the motion is DENIED.  
17 In its opposition, UMI moves to exclude evidence of bad acts by Defendants.<sup>11</sup> Because the  
18 request was not properly filed as a motion in limine and GSI had no fair opportunity to respond,  
19 that request also is DENIED.

20 **F. Docket No. 778: GSI's MIL No. 6**

21 GSI moves to exclude evidence and argument of GSI's 2007 and 2008 investigation of  
22 UMI. However, this evidence may be probative of whether ISSI knew or should have known that  
23 it had a duty to investigate the relationship between UMI and GSI in the period between 2009 and  
24 2012. The motion is DENIED.

---

25 <sup>9</sup> See Docket No. 772 at 3.  
26

27 <sup>10</sup> Fed. R. Evid. 701.  
28

<sup>11</sup> See Docket No. 835-4 at 16.

1       **G.     Docket No. 779: GSI's MIL No. 7**

2           GSI moves to exclude evidence and argument of the timing of UMI's development of the  
3 25 disputed schematics. This evidence may be probative of the disputed issue of which party owns  
4 the schematics. The motion is DENIED.

5       **H.     Docket No. 780: GSI's MIL No. 8**

6           GSI moves to prevent Defendants from advancing an interpretation of the contract that has  
7 not been adopted by the court and is not supported by evidence of an ambiguity, presenting parol  
8 evidence of an issue already determined by the court, and arguing that the contract should be  
9 construed against GSI. The request is overbroad; granting it would exclude all evidence or  
10 argument as to the terms of the agreement. Evidence and argument relating to the contract may be  
11 probative of the issues of fraudulent inducement, unclean hands, and the ownership of the  
12 schematics. The motion is DENIED.

13       **I.     Docket No. 781: GSI's MIL No. 9**

14           GSI moves to exclude evidence and argument of the equities of the contract, specifically (1)  
15 whether the contract is fair; (2) whether there was adequate consideration; (3) the relative  
16 experience of GSI, UMI, and their negotiators; and (4) UMI's experience with non-compete  
17 agreements. The evidence on the facts and circumstances of the contract negotiations may be  
18 probative of UMI's defenses of fraudulent inducement and unclean hands, and whether UMI had  
19 knowledge of GSI's alleged trade secrets, as required for trade secret misappropriation. The  
20 motion is DENIED.

1           **J. Docket No. 782: GSI's MIL No. 10**

2           GSI moves to exclude evidence and arguments of attorney's fees and costs, arguing that the  
3 amount of fees and costs is irrelevant to liability, risks being unfairly prejudicial and is a matter for  
4 the court. Defendants agree, so long as the prohibition also applies to GSI. UMI reaffirms that it is  
5 not abandoning its counterclaim for fees and costs. The motion is GRANTED and no party may  
6 present evidence or argument of fees and costs to the jury.

7           **K. Docket Nos. 785, 789, 791-2, 810: ISSI's MIL to Exclude Murphy, ISSI's MIL No. 5,  
8 UMI's MIL No. 6**

9           ISSI moves both separately<sup>12</sup> and in its omnibus motion in limine<sup>13</sup> to exclude the expert  
10 report of GSI's technical expert, Robert J. Murphy. ISSI specifically moves to exclude Murphy's  
11 first opinion, that ISSI had reason to know that UMI was selling it trade secrets acquired by  
12 improper means,<sup>14</sup> his second opinion, that the alleged trade secrets are not in the public domain,<sup>15</sup>  
13 his third opinion, on the level of experience needed to use and understand the claimed trade secret  
14 schematics,<sup>16</sup> and his re-direct deposition testimony relating to his stricken supplemental expert  
15 report.<sup>17</sup> UMI moves to exclude any testimony that the 25 schematics are trade secrets<sup>18</sup> and joins  
ISSI's motion.<sup>19</sup>

16           Courts in the Ninth Circuit have not rigidly applied the *Daubert* factors to all expert  
17 testimony, recognizing that some forms of expert testimony, such as testimony based on the  
18 expert's experience and review of the evidence, may be admissible even though it lacks the rigor of  
19

20

<sup>12</sup> See Docket No. 785.

21           <sup>13</sup> See Docket No. 789 at 9.

22           <sup>14</sup> See Docket No. 785 at 5-8.

23           <sup>15</sup> See *id.* at 8-9.

24           <sup>16</sup> See *id.* at 9-11.

25           <sup>17</sup> See *id.* at 11-12.

26           <sup>18</sup> See Docket No. 791-2 at 8.

27           <sup>19</sup> See Docket No. 810 at 2.

1 hard science methodologies.<sup>20</sup> Murphy's first opinion is based on his industry knowledge and  
2 experience, which spans more than forty years in the semiconductor industry, and an examination  
3 of the record. His expert report provides the basis for the first opinion.<sup>21</sup> His opinion may assist  
4 the jury in determining whether ISSI had reason to know of any alleged circuit commingling,  
5 because while the issue of constructive notice is indeed a factual question for the jury, determining  
6 that issue may require understanding and comparing complex circuit schematics. ISSI's motion is  
7 DENIED as to Murphy's first opinion.

8 Murphy's second opinion is that the alleged trade secrets are not in the public domain,  
9 based on his review of 15 patents, 4 specifications, various documents identified in discovery, 2  
10 white papers, 2 presentations, a lecture, a DRAM data sheet, and documents returned from public  
11 records searches.<sup>22</sup> This situation is distinguishable from *Atmel Corp. v. Information Storage*  
12 *Devices, Inc.*, where the expert based his opinion that the alleged trade secrets were not generally  
13 known based on his "mere inability to recall having heard of them before the end of the relevant  
14 time period."<sup>23</sup> However, the second opinion goes a step too far: an expert's literature review can  
15 prove only that the alleged trade secrets were not in the documents that the expert reviewed, not  
16 that they exist nowhere in the public domain. ISSI's motion is GRANTED as to Murphy's second  
17 opinion.

18 Murphy's third opinion addresses the level of education and experience needed to  
19

---

20 <sup>20</sup> See, e.g., *United States v. Hankey*, 203 F.3d 1160, 1169 (9th Cir. 2000) ("The Daubert factors  
21 (peer review, publication, potential error rate, etc.) simply are not applicable to this kind of  
22 testimony, whose reliability depends heavily on the knowledge and experience of the expert, rather  
23 than the methodology or theory behind it."); *PixArt Imaging, Inc. v. Avago Tech. Gen. IP*  
(*Singapore*) Pte. Ltd., Case No. C 10-00544 JW, 2011 WL 5417090, at \*8 (N.D. Cal. Oct. 27,  
24 2011) (admitting an expert opinion derived from the expert's "personal knowledge and experience,  
as well as his personal review of patents and technologies at issue in this case," in light of the  
expert's "extensive background in the area of optical science and computer engineering").

25 <sup>21</sup> See Docket No. 784-4 at ¶ 60 (citing, e.g., the market size for low-latency and reduced-latency  
26 DRAM design services and communications between UMI and ISSI prior to the purchase of the  
Atris database).

27 <sup>22</sup> See Docket No. 784-4 at ¶ 43, Exs. 2, 3.

28 <sup>23</sup> 189 F.R.D. 410, 411 (N.D. Cal. 1999).

1 understand the functionality of the alleged trade secret schematics. ISSI argues that Murphy lacks  
2 the education or experience necessary to offer this opinion.<sup>24</sup> However, Murphy has over 40 years'  
3 experience in semiconductor product design, including DRAM, a B.S. and M.S. in Electrical  
4 Engineering and has served as an expert witness in five cases involving DRAM products.<sup>25</sup> He  
5 clearly has the requisite education and experience, and ISSI's motion is DENIED as to the third  
6 opinion.

7 ISSI also moves to exclude Murphy's re-direct deposition testimony regarding his stricken  
8 supplemental report and the redirect testimony that the alleged trade secrets are not "readily  
9 ascertainable" and that Murphy reviewed public domain documents produced by ISSI.<sup>26</sup> As to the  
10 supplemental expert report, GSI agrees that the court struck it.<sup>27</sup> As to the "readily ascertainable"  
11 testimony, it properly restates Murphy's opinion in his report that a certain amount of experience is  
12 necessary to understand the functionality required by the schematics and to replicate them, and that  
13 having copies of the schematics allows a company to save the time and money involved in  
14 replicating them.<sup>28</sup> As to Murphy's testimony on which specific documents he reviewed in  
15 forming his opinion, the court has granted ISSI's motion to exclude Murphy's opinion that the  
16 alleged trade secrets are not in the public domain, rendering this request moot.

17 UMI moves to exclude any testimony from Murphy on the trade secret status of the 25  
18 schematics or their independent value, on the basis that Murphy was not involved in identifying the  
19 schematics.<sup>29</sup> However, it is not necessary for Murphy to identify the schematics in order for him  
20 to analyze whether they have independent economic value or whether GSI undertook reasonable  
21 efforts to maintain their secrecy. UMI's motion is DENIED.

22  
23<sup>24</sup> See Docket No. 785 at 10.

24<sup>25</sup> See Docket No. 784-4 at ¶¶ 3-9.

25<sup>26</sup> See Docket No. 785 at 11-12.

26<sup>27</sup> See Docket No. 839-4 at 15; Docket No. 600.

27<sup>28</sup> Compare Docket No. 784-6 at 376-77 with Docket No. 784-4 at ¶¶ 46-47.

28<sup>29</sup> See Docket No. 791-2 at 8-9.

1       **L.     Docket Nos. 787, 810, 791-2: ISSI's MIL to Exclude Malackowski, UMI's MIL No. 5**

2           ISSI moves to exclude the Malackowski expert report. UMI joins<sup>30</sup> and also moves to  
 3 exclude.<sup>31</sup> In a related argument, ISSI also challenges Malackowski's assessment of GSI's unjust  
 4 enrichment damages claim, which it argues is unavailable as a matter of law for the same reasons  
 5 that ISSI proffers opinions on in its motion in limine.<sup>32</sup> Defendants' arguments that Malackowski's  
 6 methodology is flawed and that his conclusions are speculative go to the weight and credibility of  
 7 Malackowski's testimony, rather than its admissibility. The court's role in acting as a gatekeeper  
 8 for expert testimony does not encompass assuming the jury's responsibility to weigh facts and  
 9 judge the credibility of one expert over another.<sup>33</sup> Defendants' motions in limine are DENIED, and  
 10 ISSI's request to exclude GSI's unjust enrichment claim also is DENIED.

11       **M.     Docket Nos. 789, 810, 791-2: ISSI's MIL No. 1, UMI's MIL No. 3**

12           ISSI moves to bar GSI from presenting new or expanded trade secret claims. UMI joins<sup>34</sup>  
 13 and also moves to exclude.<sup>35</sup> GSI states that it will not present evidence of new or expanded trade  
 14 secrets beyond the trade secrets disclosed in GSI's August 2014 disclosure, as narrowed and  
 15 confirmed by GSI's supplemental interrogatory responses and the May 8, 2015 expert report of  
 16 Murphy.<sup>36</sup> The motion is GRANTED-IN-PART: GSI may not present new or expanded trade  
 17 secrets, but may pursue theories of liability related to its previously disclosed 25 trade secret  
 18 designations.

19       **N.     Docket No. 789: ISSI's MIL No. 2**

20           ISSI moves to exclude evidence and argument that hiring Anand Bagchi was wrongful or

---

21       <sup>30</sup> See Docket No. 810 at 2.

22       <sup>31</sup> See Docket No. 791-2 at 4.

23       <sup>32</sup> See Docket No. 788 at 4.

24       <sup>33</sup> See *Emblaze Ltd. v. Apple Inc.*, 52 F. Supp. 3d 949, 954 (N.D. Cal. 2014).

25       <sup>34</sup> See Docket No. 810 at 2.

26       <sup>35</sup> See Docket No. 791-2 at 2.

27       <sup>36</sup> See Docket No. 825 at 1.

1 that trade secret theft can be inferred from that hiring, on the basis that California has a strong  
2 public policy promoting employee mobility, which does not allow for inevitable disclosure  
3 arguments.<sup>37</sup> GSI does not oppose to the extent that it will argue neither inevitable disclosure nor  
4 that the hiring was wrongful.<sup>38</sup> However, evidence regarding Bagchi's conduct before joining ISSI  
5 may be probative of ISSI's knowledge of the relationship between UMI and GSI and the ownership  
6 of the schematics. The motion is GRANTED-IN-PART: GSI may not argue a theory of inevitable  
7 disclosure, or that the hiring of Bagchi was itself wrongful or evidence of misappropriation by  
8 inevitable disclosure.

9 **O. Docket No. 789: ISSI's MIL No. 3**

10 ISSI moves to exclude argumentation that working with an entity that had previously  
11 worked with a competitor is wrongful. GSI agrees and states that it will not argue a theory of  
12 inevitable disclosure.<sup>39</sup> However, ISSI's knowledge of UMI's previous work with GSI may be  
13 probative of whether ISSI knew or should have known of the non-compete agreement and the  
14 ownership of the trade secret schematics. The motion is GRANTED-IN-PART: GSI may not  
15 argue a theory of inevitable disclosure based on ISSI's knowledge of UMI's relationship with GSI,  
16 but the evidence is relevant and admissible as to whether ISSI had the requisite knowledge and  
17 intent for trade secret misappropriation.

18 **P. Docket No. 789: ISSI's MIL No. 4**

19 ISSI moves to exclude argument and evidence about whether ISSI will seek indemnity from  
20 UMI. GSI agrees and states that it does not intend to offer evidence of whether ISSI will seek  
21 indemnification as evidence of ISSI's guilt or ability to pay.<sup>40</sup> However, evidence of ISSI's ability  
22 to seek indemnity may be probative of ISSI's bias, an innocent purchaser defense, or ISSI's state of  
23 mind when negotiating its agreement with UMI. The motion is GRANTED-IN-PART: GSI may  
24 not offer evidence as to whether ISSI will seek indemnity as evidence of ISSI's guilt or ability to

1 pay.

2 **Q. Docket No. 789: ISSI's MIL No. 5**

3 ISSI moves to exclude the supplemental expert report and deposition testimony of Murphy.  
4 As discussed above in Part K, this motion is GRANTED-IN-PART.

5 **R. Docket No. 789: ISSI's MIL No. 6**

6 ISSI moves to exclude evidence and argument that UMI was ISSI's agent during the Atris  
7 bidding in 2012. ISSI argues that Cisco decided the Atris bid in December 2012, while ISSI and  
8 UMI did not form a contract with each other until the following year; that GSI lacks evidence of an  
9 agency relationship; and that GSI failed to plead an agency claim.<sup>41</sup> UMI joins.<sup>42</sup> However, a  
10 motion in limine is not "an appropriate means to resolve factual disputes or weigh evidence" and  
11 "should not be used as disguised motions for summary judgment."<sup>43</sup> GSI presents evidence  
12 supporting a theory of agency liability<sup>44</sup> and the Second Amended Complaint included allegations  
13 that ISSI and UMI were working in concert to misappropriate GSI's trade secrets.<sup>45</sup> The motion is  
14 DENIED.

15 **S. Docket No. 789: ISSI's MIL No. 7**

16 ISSI moves to exclude evidence and argument on GSI's claim for intentional interference  
17 with contract, which the court previously struck.<sup>46</sup> The court subsequently denied GSI's request  
18 for leave to amend its pleadings to revive the claim.<sup>47</sup> However, evidence relating to GSI's  
19

23 <sup>43</sup> *Colton Crane Co., LLC v. Terex Cranes Wilmington, Inc.*, No. CV 08-8525 PSG (PJWx), 2010  
24 WL 2035800, at \*1 (C.D. Cal. May 19, 2010).

25 <sup>44</sup> See Docket No. 825 at 11-12.

26 <sup>45</sup> See Docket No. 196 at ¶ 1.

27 <sup>46</sup> See Docket No. 227 at 14.

28 <sup>47</sup> See Docket No. 717 at 5-6.

1 intentional interference with contract claim may be probative of other disputed issues, such as  
 2 GSI's Section 17200 "unfair" claim and whether ISSI knew or had reason to know that it was  
 3 acquiring GSI's trade secrets. The motion is DENIED.

4 **T. Docket No. 816: ISSI's MIL Regarding the Court's Summary Judgment Order**

5 ISSI moves to preclude GSI from presenting evidence and argument contrary to the court's  
 6 summary judgment order,<sup>48</sup> specifically that ISSI used the alleged trade secret schematics  
 7 beginning in August 2012 to bid for and win the Atris contract; any evidence or argument  
 8 regarding GSI's 273 alleged non-trade secret schematics; and any claim of conspiracy. UMI  
 9 joins.<sup>49</sup>

10 The court previously granted summary judgment on whether ISSI's alleged acquisition of  
 11 GSI's schematics in 2013 was a substantial factor in Cisco's Atris decision in 2012.<sup>50</sup> Undeterred  
 12 by the court's holding, GSI now argues that ISSI used the schematics beginning in August 2012,  
 13 and that this use enabled ISSI to bid for and win the Atris contract.<sup>51</sup> However, the court's  
 14 summary judgment order on misappropriation by acquisition also bars GSI's claim for trade secret  
 15 misappropriation by use. The court found that the "undisputed evidence from Cisco" was that the  
 16 pricing and foundry choice were factors in Cisco's Atris decision.<sup>52</sup> The law of the case doctrine  
 17 precludes reconsideration of a court's prior rulings in the same matters absent extraordinary  
 18 circumstances.<sup>53</sup> GSI has not shown that extraordinary circumstances exist, and the court's  
 19 summary judgment order thus bars GSI from raising evidence and argument that ISSI used the  
 20 alleged trade secret schematics beginning in August 2012 to bid for and win the Atris contract.

21 As to the 273 alleged non-trade secret schematics, the court previously ruled that any claim

22  
 23 <sup>48</sup> See Docket No. 807.

24 <sup>49</sup> See Docket No. 851 at 2.

25 <sup>50</sup> See Docket No. 807 at 13.

26 <sup>51</sup> See Docket No. 790 at 1, 2; Docket No. 800 at 1, 3, 9-10; Docket No. 859-4 at 15.

27 <sup>52</sup> See Docket No. 807 at 14.

28 <sup>53</sup> *Christianson v. Colt Indus. Operating corp.*, 486 U.S. 800, 815-16 (U.S. 1988).

1 for conversion of the 273 non-trade secret schematics is preempted,<sup>54</sup> and so GSI may not raise  
2 evidence or argument on conversion in violation of that ruling. However, as discussed below in  
3 Part W, evidence and argument relating to the sale of the schematics may be probative of the  
4 disputed ownership, confidentiality and non-compete terms of the contract between GSI and UMI,  
5 and thus is admissible as to those issues.

6 Finally, the court's summary judgment ruling bars evidence and argument of co-conspirator  
7 liability based on a theory that ISSI conspired with UMI to use GSI's trade secrets to win the Atris  
8 bid. As discussed above, no reasonable jury could find that Cisco's decision on the Atris bid was  
9 driven by anything other than pricing and foundry choice.<sup>55</sup>

10 ISSI's motion is DENIED as to the 273 alleged non-trade secret schematics and  
11 GRANTED as to all other relief requested.

12 **U. Docket No. 791-2: UMI's MIL No. 1**

13 UMI moves to exclude introduction of the court's prior rulings in this case at trial. GSI  
14 agrees as to the court's dicta in Docket Nos. 24, 160 and 450, but opposes as to any court order  
15 determining the law that the jury must apply in this case.<sup>56</sup> ISSI opposes on the basis that the  
16 court's orders regarding GSI's trade secret claims are relevant to ISSI's claim for bad faith and  
17 defenses of unclean hands, estoppel, and failure to mitigate. The court's rulings on GSI's previous  
18 trade secret disclosures and dismissed claims may be probative of bad faith and ISSI's affirmative  
19 defenses, since a trade secret plaintiff's litigation tactics are admissible and relevant to a claim for  
20 bad faith, and the dismissal of claims may be probative of GSI's motives in bringing suit. The  
21 motion is DENIED.

22 **V. Docket No. 791-2: UMI's MIL No. 2**

23 UMI moves to preclude GSI's experts from testifying on matters not included in their  
24 expert reports. GSI agrees, with the exception that their experts may testify on matters not

25

<sup>54</sup> See Docket No. 807 at 16.

26<sup>55</sup> See Docket No. 807 at 13-15.

27<sup>56</sup> See Docket No. 820 at 1.

1 included in their reports if UMI opens the door to such testimony during examination of their  
2 experts. The motion is GRANTED, and all parties' experts may offer testimony only on matters  
3 within the scope of their expert reports.

4 **W. Docket No. 791-2: UMI's MIL No. 3**

5 UMI moves to exclude evidence and argument that UMI committed wrongful acts with  
6 respect to any materials or information aside from the 25 schematics. However, GSI alleges that  
7 UMI improperly sold approximately 300 schematics to ISSI. The nature of this material may be  
8 probative of the disputed ownership, confidentiality and non-compete terms of the contract  
9 between GSI and UMI. The motion is DENIED.

10 **X. Docket No. 791-2: UMI's MIL No. 4**

11 UMI moves to exclude evidence and argument regarding UMI activities performed in  
12 connection with ISSI's business operations in space leased from UMI at UMI's headquarters.  
13 However, this evidence may be probative of whether UMI aided ISSI in violation of the non-  
14 compete clause, and GSI's Section 17200 "unfair," TIPER, and fraud claims. The motion is  
15 DENIED.

16 **Y. Docket No. 791-2: UMI's MIL No. 5**

17 UMI moves to exclude the expert testimony of Malackowski. As discussed in Part L, the  
18 motion is DENIED.

19 **Z. Docket No. 791-2: UMI's MIL No. 6**

20 UMI moves to exclude the expert testimony of Murphy. As discussed in Part K, the motion  
21 is DENIED.

22 **AA. Additional Disputes from Pre-Trial Conference and Pre-Trial Briefing**

23

- 24 • GSI requests leave to amend the Complaint to allege causes of action against ISSI for  
25 inducing breach of contract and intentional interference with a contract.<sup>57</sup> For the reasons  
stated in the court's denial of GSI's previous request for leave to amend,<sup>58</sup> GSI's request  
is DENIED.

26

---

27 <sup>57</sup> See Docket No. 790 at 16.

28 <sup>58</sup> See Docket No. 717 at 5-7.

- 1     • GSI and ISSI agree that the Section 17200 claim must be resolved by the court,<sup>59</sup> but  
2     disagree as to when this should occur. ISSI argues that it should be tried by bench trial  
3     before the jury is convened.<sup>60</sup> GSI objects.<sup>61</sup> The Section 17200 claim will be decided by  
4     the court after the jury trial, *i.e.*, based on the record presented at the jury trial. If the  
5     court requires additional evidence, the parties may request an additional evidentiary  
6     hearing.
- 7     • GSI's TIPER claim and all affirmative defenses will be tried to the jury.
- 8     • GSI and ISSI request that the issue of attorney's fees and costs be addressed by the court,  
9     if necessary.<sup>62</sup> At the conclusion of trial, the parties may file motions regarding any  
10     award of fees and costs.
- 11     • GSI requests summary judgment on the issue of whether it owns the schematics delivered  
12     to it by UMI pursuant to Section III.1 of the agreement between GSI and UMI.<sup>63</sup> Because  
13     genuine disputes of material fact remain as to this issue, GSI's request is DENIED.<sup>64</sup>
- 14     • UMI requests resolution of its pending motions to compel GSI to supplement its privilege  
15     log,<sup>65</sup> to compel GSI to produce the agreement,<sup>66</sup> and to compel GSI to supplement its  
16     interrogatory responses and strike portions of GSI's supplemental responses.<sup>67</sup> GSI has  
17     produced the disputed letter by e-mail for *in camera* review. All relief requested is  
18     DENIED.
- 19     • At the pre-trial conference, the parties raised the issue of subpoenaing Jeffrey M. Shohet.  
20     UMI may serve a subpoena on Shohet, and if GSI so chooses, it may file a motion to  
21     quash the subpoena.
- 22     • The parties will have a total of 70 hours of trial time, with GSI receiving 30 hours, UMI  
23     receiving 20 hours, and ISSI receiving 20 hours. Trial time will be charged for opening  
24     statements, closing arguments, direct examinations, cross examinations and any rebuttal.  
25     Voir dire, jury instructions and jury deliberations will not count toward the 70 hours.

29     <sup>62</sup> See Docket No. 790 at 22-23.

30     <sup>63</sup> See Docket No. 790 at 23.

31     <sup>64</sup> See Docket No. 807 at 5, 16:11-14.

32     <sup>65</sup> See Docket No. 790 at 18; Docket No. 485.

33     <sup>66</sup> See Docket No. 790 at 18; Docket No. 488.

34     <sup>67</sup> See Docket No. 790 at 18; Docket No. 483.

1       • GSI will present its case first, UMI will present its case second and ISSI will present its  
2       case third.

3       • Each trial day will begin at 9:00 AM and end at 4:30 PM, with a one-hour lunch break.  
4       Counsel shall appear at 8:00 AM each day to address any preliminary evidentiary issues.

5       • Voir dire will commence at 9:00 AM on October 26, 2015. Opening statements will  
6       commence as soon thereafter as possible, including on October 26, 2015.

7       • The court will pre-instruct the jury before opening statements.

8       • The court will not be in session on the following dates:

9            ◦ November 4, 2015;  
10           ◦ November 5, 2015;  
11           ◦ November 6, 2015;  
12           ◦ November 11, 2015;  
13           ◦ November 19, 2015; and  
14           ◦ November 20, 2015.

15       • Jury instructions and the verdict form will be addressed at the jury charge conference to  
16       be held during trial.

17       • If the parties wish to use a juror questionnaire, they will file a single, joint juror  
18       questionnaire no later than 5:00 PM on October 16, 2015.

19       • Each party shall have 3 peremptory challenges.

20       • Each side will disclose to the other side each witness it intends to call live (in the order of  
21       call) and by deposition by 7:00 PM at least two days before the day of trial during which  
22       the witness will testify, except that witnesses to be called on a Monday must be disclosed  
23       by noon on the preceding Friday. By 6:00 PM the night before a party intends to call a  
24       witness, it must provide the other side and the court with all the exhibits and  
25       demonstrative evidence it intends to use with that witness. By 8:00 PM that same night,  
26       the other side must state any objections thereto or they are deemed waived. The parties  
27       will attempt to meet and confer that night or in the morning to resolve such objections.

28       • The parties will exchange all demonstratives, visual aids and evidence that they plan to  
      refer to in opening statements by 4:00 PM on October 23, 2015. The other side must raise  
      any objections to such use by 8:00 PM on that night, or they are deemed waived.

      • All disputes about exhibit admissibility, deposition designations or the propriety of  
      demonstratives will be addressed the morning that the exhibit or demonstrative is to be  
      used at trial.

      • For the designated deposition transcripts, objections need not be read to the jury, and they  
      can be edited out of the transcript or video clips for hearing or viewing by the jury.

      • The parties shall meet and confer as to confidentiality designations prior to trial. The  
      parties will file any requests for confidential treatment of information at trial by October

19, 2015. The courtroom will remain open to the public over the course of trial, subject  
1 to any narrow and exceptional request of the parties granted by the court.

2

- 3 The parties may briefly introduce each witness at the beginning of each direct  
examination. Each witness may be questioned by only one attorney per side.
- 4 The jury may submit jury questions to the court following the conclusion of each  
witness's testimony. After reviewing the questions posed and confirming that they are  
legally permissible, the court will ask any permissible questions to the witness on behalf  
of the jury. Time during which the witness responds to questions posed by the jury shall  
be divided among the parties, with 3/7 of the time being charged to GSI, 2/7 of the time  
being charged to UMI and 2/7 of the time being charged to ISSI.
- 5
- 6
- 7
- 8 The parties will admit exhibits by agreement where possible. Otherwise, exhibits must be  
used with a witness to be admitted into evidence. Each party will move to admit exhibits  
as they are presented to the witness, during a break or at the end of the trial day.
- 9
- 10 One party representative may attend the entirety of the trial. Witnesses other than experts  
and each party's corporate representative will be sequestered.
- 11
